HOW TO APPLY FOR THAILAND PASS

« TEST & GO » step-by-step, with the TAT Paris

FOREWORD

This presentation aims at introducing you to the Thailand Pass system and accompanying you throughout the procedure. Following its advice can give you a better chance of obtaining a Thailand Pass. However, this is just a guideline. It can not be held responsible for the outcome of your registration. There are many factors that can lead to your request being denied: conflicting information, false documents, unreadable images, serious misspelling, etc.

Nevertheless, we hope that this presentation can offer you some clarification and help you understand better how the system works and what it requires.
